

A scatter plot showing the relationship between variables x and y. The x-axis ranges from approximately 3.92 to 4.08, with major ticks at 3.95, 4.00, and 4.05. The y-axis ranges from approximately 0.00 to 0.04, with major ticks at 0.00, 0.01, 0.02, 0.03, and 0.04. The data points are represented by purple circles with black outlines. There is a clear positive linear trend, with a dense cluster of points between x=4.00 and x=4.05, and y=0.01 and y=0.03. A few points are outliers, such as one at approximately (3.94, 0.00) and another at (4.08, 0.04).
